Standard Guarantee

of

American Shorthorn Breeders' Association

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals are sold to comply with the laws regulating Tuberculosis and Bang's Disease of the state or country into which they may be shipped.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipments will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All animals sold in this International Sale will be backed by the above Standard Guarantee.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.

Good Bulls for Greater Progress

Investing in an outstanding purebred Shorthorn bull is the best way to progress in the beef cattle business. It is far cheaper to breed deep middles and naturally thick bodies on calves than to feed them on . . . and if a calf has not been given the right heritage no amount of feeding and handling will ever develop it into a top animal.

A good Shorthorn bull will raise the standard of the calves from just average cow herds immediately . . . and owners of choice cow herds cannot afford to invest in a bull that doesn't give all the evidence of having the ability to sire calves equal or superior to their dams.

The bulls offered in this sale are just the type to lead the progress of the breed in the future decade.

Your Three-Way Opportunity

Commercial breeders, who represent a vast majority engaged in the production of beef cattle . . . the farmer-breeders, who maintain relatively small herds of commercial cattle . . . and breeders of pure-bred registered cattle constantly seek herd bulls and foundation females.

Thus the demand for improved breeding stock is three-fold . . . and is conclusive assurance of future security for breeders of Short-horns of the profit-producing type demanded by ranchers, farmers and breeders alike.

Establish your herd in this sale . . . the bulls and females have been carefully selected to provide you with ideal foundation animals.

Shorthorns

Establish Another World's Record

A new world record price for feeder calves was set at the 1949 National Western Stock Show at Denver for the Grand Champion feeders over all breeds by this load of Shorthorns shown by Josef Winkler, Castle Rock, Colo. The calves averaged 454 pounds each and sold at the new high of \$77 per cwt. They out-weighed the reserve champions of another breed of the same age 71 pounds per head. They were purchased by Fulton-Foxley Commission Co. and donated to Boy's Town.

These same steers were Champion Shorthorns as fat cattle at the 1949 American Royal National Shorthorn Show, where an additional fund of over \$16,000 was raised as a donation to Boys' Town. The steers were given back to Boys' Town and were exhibited at the Grand National Exposition at San Francisco where they were Reserve Grand Champions over all breeds in the fat carload show.
